Vacation stresser

Problem

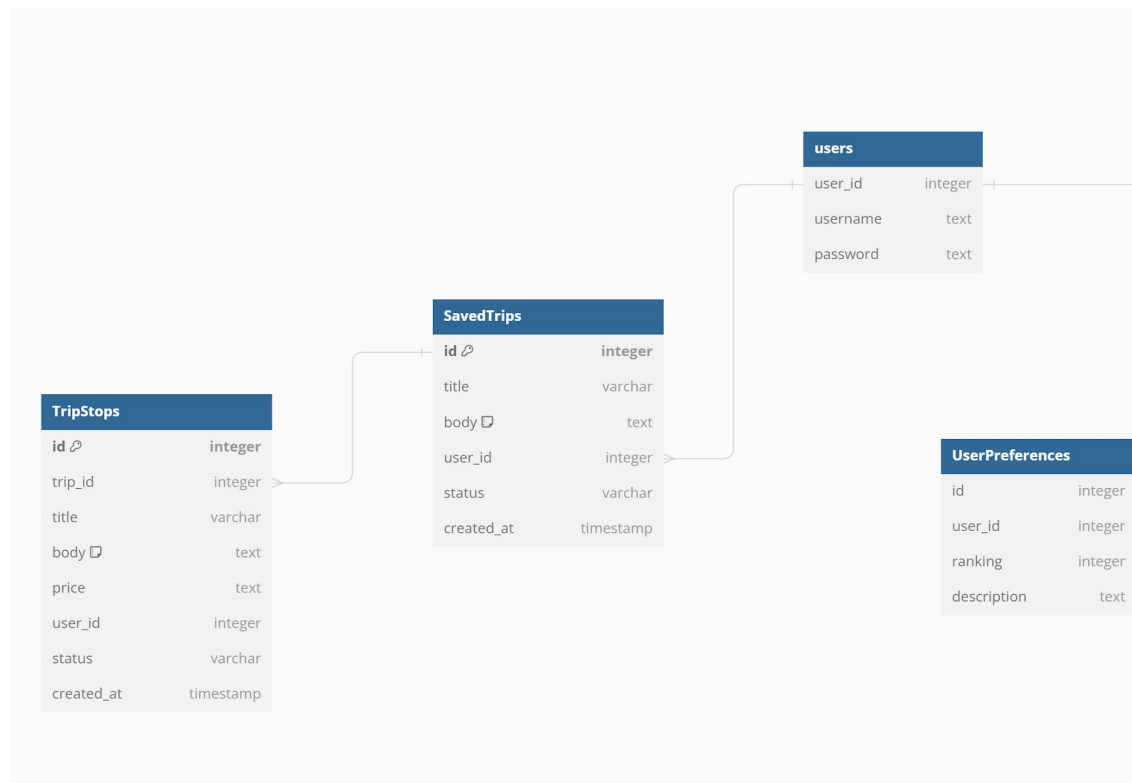

- Travel planning is hard
- Finding inspiration is harder
- Sharing travel plans often requires multiple websites

WonderHop Features

- Search for travel destinations
- Add budget, places by day, flights and dates, and itinerary
- See other users trips
- Share your own dream trips
- Find weather and other details before you go

Chatbot

Plan

- Build out frontend
- Build a static backend, implement a API later
- Link to a chatbot(stretch)

Possible Pain Points- Frontend

The slide features a blue header with the title 'Possible Pain Points- Frontend' in white. To the right of the title, there are two white cloud icons. The main content area is light gray and contains a list of two bullet points. The slide is decorated with stylized clouds: two blue clouds on the left and one blue cloud on the right.

- Build out frontend, ui/ux for design and user behavior
- Integrating with the backend

Possible Pain Points-Backend

- 
- Finding an API to facilitate search
 - Building a chatbot, or finding one
 - Integrating with frontend
- 

Conclusion

- WonderHop makes travel planning and sharing easier than ever before
